Medical.

Attention, Doctors. Everybody knows that the life of the versge physician is a hard one. He is pelled to ride great distan-ud and rain for a merely no otten compened to ride great distances through mud and rain for a murely nominal fee. It is not fit not proper for us to condemn any physician for his work, but we do assert that his practice can be made easier, and be can effect more cures by the proper and judicious use of PRRINA. If he will only add this great remedy to his list of medicines he will find that his usefulness will be greatly increased. Full direction for lis use will be found in the "Ills of Life," and he should atomee procure this valuable book.

N. J. Wright, Business Agent Evening Herald, Eric, Pa., says: "DR. HARTMAN—I can not but feel it my duty to express to you my thanks for the great benefit I received from the use of your medicines, PRUMA and MANAILN. One bottle of each placed me square on my feet, after a sickness of four weeks, which confined me to my bed, and then left me laine and crippled. Three days

which confined me to my bed, and then left me laine and crippled. Three days from the commencement of the use of

from the commencement of the use of your remedies the cane was dispensed with, and in a week I was perfectly well."

Mrs. Ellen Maynard, Oswego, Potter county, Pa., writes: "Dn. HARTMAN, Columbus, O. The small ulcers are nil healed, and the two large ones are not more than half as large as they were. I am feeling quite well. The people say your PERUNA and MANALIN are doing a miracle. I do not take nearly so much oplum as I did before."

Joseph Thomas, East Brady, Pa., writes: "I have used your PERUNA and MANALIN with good results, In the year of 1830 I was so had that I could carrely walk. I used PERUNA and MANALIN,

walk. I used PERUNA and MANALIN

and am now as reathly as I take ever been. I have also recommended it to several parties, and they have been much benefited by it."

Mr. C. H. Harris, New Vienna, Ohio, writes: "Our little girl was paralyzed at thirteen months old, and we resorted to everything we could hear of for relief, but she appeared to get but little better. Hearing of Peruna we concluded to try it, and will say it has done her a great deal of good—the first bottle apparently giving ald and relief. We have used it for nervousness in other cases on other persons and found it a success. For general debility, and in fact for any disease, we don't think anything else can at all compare with it. We have used forty or fity bottles, and our house is never without bottles, and our house is never without Peruna. Our little girl is now eight years old, and can run any place, was for four years helpless. PERUNA cured her.

THE LEGISLATURE.

THE SENATE SESSION. yd's Protest and His Seat—Co-educi Safe—The Insane Asylum Hill, Etc. The Senate metat 10 A. M. yesterday. Mr. Floyd, from the Committee on Mines and Mining, reported back the bill to provide for the proper drainage and ventilation of district inspectors of mines, with the ecommendation that it do not pass. The bill to provide for an inspector of mineral sils, etc. was returned without recom-

lation to expunge from the journal the protest of Mr. Floyd against the action of the Senate on the bill to repeal the charter of the Etk River Improvement Company, was taken up for consideration. Mr. Flournoy moved that the resolution be re-

Floyd, Melvin, Morris, McCreery, Price Smith, Switzer and Unger voted to recon-

Mr. Morris noved to take up senate Joint Resolution No. 2, proposing an amendment to the Constitution on the subject of exemptions from taxation, but the motion did not prevail.

Mr. Floyd introduced a new bill, Senate Bill No. 109, to provide a fine of \$2 for every 24 hours an unlawful obstruction is allowed to remain in a river, one-half to so to the informer.

THE INSANE ASYLUM BILL. Mr. Scott's bill in reference to the Hospital for the Insane was then taken up.

The pending question was Mr. Flournoy's motion to strike out the provision that in each of the three classes of Regents provided for, not more than two out of three members shall be of the same per against the amendment. Mr. Byrne was excused from voling, the numerous relatives of Dr. Bland employed at the asylum, whose employ ment there had been used so forcibly in the discussion of the bill, being also related to Mr. Byrne. The substitute proposed by the Judiciary Committee, which does not affect the main object of the bill, was adopted, and the bill ordered to its third reading. Contrary to expectation there was no further debate.

Seintors Smith, of Yper, bythe, of As-nawha, Dawson, of Preston, and Flournoy, of Hampshire, were granted leave of ab-sence for several days each.

The justices' bill was taken up, and consumed the remninder of the morning sectsion and a considerable time after re-cess. It was made the special order for

cess. It was made the special order for II A. M. to-day.

Mr. Arnold presented Senate Bill No. 110, making it a crime to befoul any well, spring or eistern used for domestic purposes. The same gentleman presented a petition asking an amndment to the game law for the better protection of deer.

The Senate adjourned about 5 o'clock.

HOUSE OF DELEGATES.

of Routine Business Finished-A Fer Rev. G. M. Shott, of the First Baptist

manufacture of tobacco, cigars, wagons or other wheeled vehicles, or parts of such vehicles, was taken up, the pending ques-tion being the adoption of an amendment which destroyed the bill, leaving the law as it now stands.

MR. ROBERTSON ON HIS BILL.

This amendment Mr. Robertson op-posed. He said: The National and State conventions of The National and State conventions of all parties, in the recent political contests, vied with each other in filling their platforms with profuse promises to protect and advance the interests of labor, and those of the parties in this State were no exception to the general rule. Now, for the first time a bill is introduced that will materially, benefit the machanics of the the first time a bill is introduced that will materially benefit the mechanics of the several branches of industry required in the manufacture of wagons and other wheeled vehicles, and it remains to be seen whether the promises held out by the different parties were mere bombast, or were made in good faith. Bills have been introduced at previous sessions of the Legislature in this State, looking to the abolton of contract convict labor in the penitentiary, but were defeated on the ground that they were too far-reaching in their demands, and would vitrually leave the prisoners a burden upon the tax-payers of the State. The bill now before you contemplates and will bring about no such radical change. It simply proposes to Flournoy moved that the resolution be referred to the Judiciary Committee, which was done.

Mr. Morrison presented the following: Resolved, That the Committee on Privileges and Elections be instructed to inquire as to whether the Hon. J. B. Floyd be eligible to a seat in this Chamber, under Article VI, Section 12, of the Constitution of this State.

On motion of Mr. Flournoy, the Committee on the Judiciary was substituted for that on Privileges and Elections, and the resolution was then adopted.

The section referred to reads: "No person shall be a Senator or Delegate who has not for one year next preceding his election been a resident whilm the district or county from which he is elected; and if a Senator or Delegate who has not for one year next preceding his election been a resident whilm the district or county from which he is elected; and if a Senator or Delegate who has not for one year next preceding his election been a resident whilm the district or county for which he was elected, his seat shall be thereby vacated."

Tetitions were presented by Mr. Scott, signed by Joseph Speidel & Co., and fortynne other business firms, and by Mr. Brown, signed by W. E. Hughes and others, of Wheeling, remonstrating against the proposed action on the attachment of wages of non-residents.

Mr. Switzer called up his motion to reconsider the vote by which the Sonate passed the Scott Co-culcation bill. The motion was lest by a vote of 11 to 13. President Price and Messars. Brown, Flournoy, Floyd, Melvin, Morris, McCreery, Price Smith, Switzer and Unger voted to reconsider.

In Mr. Switzer and Unger voted to reconsider in the face of lighting criminal competition inside the prison?

In God's name, can it be expected that other firms will survive, in the face of lighting criminal competition inside the prison?

In deference the survive, in the face of lighting criminal competition inside the prison?

In deference the survive, in the face of lighting criminal competition inside the prison?

In deference the traction of the st

this house will consent to have the whole of this great industry monopolized by foreign contractors to the exclusion of our of this great industry monopolized by foreign contractors to the exclusion of our home manufacturers and workmen. The second part of the assertion is equally absurd. If the prison manufactory is closed, the dead and dying wagon industries throughout the State will be filled with new life, and at least as much lumber be required then as now. The only difference to the lumber dealers of Marshall county will be that they will be required to deliver their products at the depot instead of at the orison.

to deliver their products at the depot instead of at the prison.

Another argument advanced by the friends of convict labor is that penitentiaries at other points engaged in the manufacture of wagons will supply the market in this State if the concern at Moundsville is wiped out of existence. This may look reasonable in theory, but the parties who advance it ought to know it is not a fact. These same penitentiary wagon shops were in existence previous to the establishment of the one at Moundsville, and the free-labor wagon manufactories of this State suffered to no appreciable extent by the competition. If it were true that the ruinous convict competion would not cease, or be considerably modified, by the stoppage of the works at Moundaville, the operators and workmen throughout the State would take no interest in the matter. But I have in my possession a letter from the largest wagon manufacturing firm in this State, which shows that they are deeply interested in the abolition of this curse upon free labor and free institutions. The following extracts will show the tenor of the letter:

curse upon free labor and free institutions. The following extracts will show the tenor of the letter:

"We have been obliged to reduce the number of our employes and lease a largo portion of our factory to other branches of business. We have made some special improvements, and do not know that we have made any money in the manufacture of wagons in the past ten years. * * * * There is no price at which we can sell a wagon made by honest labor that cannot be discounted by the contractors at the West Virginia State prison. The reason is obvious: We pay our men an average of two dollars per day, while the State lets the convicts at about sixty cents.

"And if we are not mistaken, the contractors are free from State and municipal taxation. * * * The State has a graveyard in which are buried the shops of Modat & MoNabb, the Wheeling Wagon Company, Busbey & Little and others, of Wheeling, together with all the small shops heretofore found at country cross-roads throughout the State."

While the injury to the manufacturers is great, and should have considerable influence in deciding this question, in my opinion the gravest wrong is perpetrated against those mechanics who are derived.

See Transfer Companies of the Section of the Sectio

wagon or cigar making they must be employed on other work and perhaps on something that would be more severe upon citizens engaged in business than if working as now.

Mr. Edwards said it was merely a question whether wagons made by convict labor at Jackson, Mich., and elsewhere should come into competition with wagons built in Wheeling. He alluded to the unsuccessful experiment with the abolition of convict labor in the Ohio penitentiary at Columbus. Mr. Edwards also read a statement showing the expenses of the Webster Wagon Company for iron, lumber, free labor and taxes.

The amendment was adopted by a vote of 50 to 11. The bill was then indefinitely and the property of the control of

for iron, lumber, free labor and taxes.

The amendment was adopted by a vote of 50 to 11. The bill was then indefinitely postponed.

Several bills were read the first time, and the House adjourned at 5:20 P. M.
